The population in this country has been programmed. They are living in the matrix. It's time to set yourself free and reprogram yourself for your highest good. Most people have beliefs that limit or disable them. We are creators and it is important to understand exactly what that means.

- Do we really have to get old and die? Can we stop the clock?
- Better yet, can we turn back the clock? Can we free ourselves of sickness?
- We have the power of God, but what are we doing with that power?
- Where do we start?

Dr. Jean will be talking about how we are being programmed to age, who is doing this and why. She will discuss how we can change this pattern and will also be explaining ways we can even regenerate ourselves.

She will also explain how we are programmed to get sick. Sickness is not normal and certainly not necessary. Health is normal. Find out how to free yourself of this toxic pattern and take charge of your own health giving up colds, the flu and other sickness for good.

Join us on this enlightening **Woman's Intuition Network** conversation. There will be time for calling or writing in.

LISTEN TO THE PROGRAM!

“” I really enjoy the words of wisdom I hear from Jean Logan. I hope you have her on more often.

I believe Jean is one of the brightest stars on the planet, and I was so disappointed to miss her talk with you... I would appreciate hearing Jean's replay so very much!!

Please have Jean Logan on more often. I learn a great deal each time I listen to her.
