

## Remove Evil, More Powerful Glyphs & Resolve Chem Trails!

### Repel Evil Glyph

At the end of a ceremony for sacred symbols I asked the spirit guides if they had anything they wanted to tell me. I was told I should create a glyph to repel evil. I was told exactly what the empowerment statement should be which is as follows. **"Repel the influences of dark energy to include anger, hatred, judgement, false pride, greed, lust and other detrimental influences and replace with love, honor, respect, fortitude, love of mankind and the plants and animals."**

I put it in my third healing manual **"Symbols of the Dawn."** I was not sure at the time how this glyph would be used, however, with so much evil around the coming elections in the USA I am sure it can be useful.

I suggest putting the name of someone on a piece of paper and placing it on top of a copy of the glyph. You might also make a copy and have it laminated to post outside your home to ward off any negative energy.

### Making Glyphs More Powerful

You can increase the power of the glyphs just by your intention. The glyphs already have energy but this can be increased, for example you could make a statement **"I intend the energy of this glyph is increased by 100%."**

You might add that statement **"within safe limits."** This will prevent the glyph from becoming powerful enough to create discomfort. You can also change the energy of the glyph to accommodate your situation by simply making an intentional statement.

### Neutralize Chemtrails!

In addition to sending out various healing and detoxifying energies, the **Scaler Energy glyph** can neutralize all toxic matter in chemtrails and other discharges containing toxic airborne matter. It can also transition energetic frequencies that will interfere with any emitted frequencies, such as those from HAARP, that are designed to have a negative effect on the earth and her living beings. Laminate the larger image input outside with the intention.

### Quote on the Power Glyphs

**Dear Dr. Jean,**  
*I recently purchased your 'sacred Symbols of Light' book on [Amazon.com](#), and began using Glyph 32 - Stomach, Liver, Gallbladder, and Pancreas on (Friday) 2-19-2016. I received amazing healing results.*

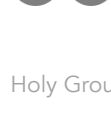

*I had surgery in 1997 to have approximately 12 inches of my colon removed on account of Diverticulitis, and since then have had several flare-ups with bleeding and brief hospital stays. I am Thanking God through you for the Divine Blessing of the Glyphs, because I am feeling like a completely new person now.*

*I have no more stomach pain and discomfort, feel much more energized, and just great. Also, I have already purchased your book 'Unlocking The Power Of The Glyphs' from your website, and plan to order additional copies of your books for friends in the brief future...*

Eternal Abundant Love and Light,  
**Norman Gentry**
